Good Samaritan

5.10c - 2 Pitch

Guidebook Image Credit: [quickdrawpublications.com](https://www.quickdrawpublications.com)

Description:

Fun crack climbing through a variety of different styles. From vertical jamming to a slot chimney, a thin delicate seam, an under-cling block traverse, to an acrobatic finish. Protects well throughout.

*Links directly into Squamish Buttress / Butt Light, among other routes to top-out the Stawamus Chief.

P1. 5.10a

Climb through a small roof with good features to a slot chimney, finishing at a great belay.

P2. 5.10c

Climb up to a right leaning thin seam on the slab. Dance your way on bomber small gear (*BD 0.2, small nuts*) to an exciting block. Traverse around the block with a perfect crack to a physical finish. Save the #4 for this pitch.

DR 0.5" to 3", 1 x 3.5" cam

FA Evan Beatty, 2023.
